

## **Job Title: Assembly Technician I – Electronic Manufacturing**

### **Kickstart Your Career in Electronics!**

Are you ready to build hands-on skills in a high-tech, team-oriented environment? We're seeking a detail-driven **Assembly Technician I** to join our production team. This entry-level role is ideal for someone eager to grow their knowledge in cable and wire harness assembly, soldering, and component installation. With on-the-job training, mentorship from experienced staff, and opportunities for advancement, this is a significant first step into the world of electronic manufacturing!

---

### **What You'll Do:**

#### **Learn & Grow with Every Task:**

- Follow detailed work instructions, travelers, and procedures to complete tasks accurately and efficiently.
- Read and interpret wiring diagrams, assembly drawings, and Bills of Materials (BOMs).
- Prepare your workstation by verifying tools, materials, and documentation.

#### **Build with Precision:**

- Assemble wire harnesses and cable assemblies that meet customer specs and high-quality standards.
- Use tools like wire strippers, crimpers, cutters, and screwdrivers to cut, strip, crimp, terminate, and label wires.
- Apply heat shrink tubing, connectors, and hardware as specified.
- Perform soldering of wires, terminals, and components (training and IPC certification encouraged).
- Operate production equipment and safely move materials as needed.

#### **Deliver Quality You Can Be Proud Of:**

- Inspect your work for accuracy and craftsmanship.
- Distinguish between wire colors and read small print.
- Report any issues or defects to your supervisor.
- Follow all procedures in our Quality Management System (QMS).

#### **Keep Safety First:**

- Keep your workstation clean, safe, and organized.

- Use PPE and follow ESD protocols.
  - Support your team by jumping in where needed to meet production goals.
- 

### **What You Bring to the Table:**

- High school diploma or GED required.
  - At least 2 years of relevant work or training experience (preferred but not required).
  - U.S. citizen or authorized to work in the U.S. without sponsorship.
  - Bilingual in Spanish is a plus!
  - Basic soldering and assembly skills (or the drive to learn).
  - Ability to read technical drawings and work instructions.
  - Strong manual dexterity and attention to detail.
  - Comfortable using basic math and hand tools.
  - Capable of standing or sitting for long periods and lifting to 30 lbs.
  - Clear vision (corrected or uncorrected) for fine detail work.
- 

### **Why Join Us?**

- Gain experience in a growing and innovative industry.
  - Receive hands-on training and mentorship.
  - Competitive pay and benefits package.
  - Work with a team that values quality, respect, and continuous improvement.
  - Enjoy a clean, organized, and supportive work environment.
  - Be part of something meaningful – your work will power real-world solutions!
- 

### **Ready to build your future with us?**

If you're detail-oriented, eager to learn, and ready to roll up your sleeves, apply today and start your journey in electronic manufacturing!
