

## **Job Title: Assembly Technician II – Electronic Manufacturing**

### **Ready to Level Up Your Assembly Career?**

We're seeking a skilled and detail-oriented **Assembly Technician II** to join our production team. If you've already built a strong foundation in cable and wire harness assembly and are ready to take on more complex builds with greater independence, this is your opportunity to grow in a supportive, team-driven environment.

---

### **What You'll Do:**

#### **Build with Confidence & Precision**

- Perform advanced electro-mechanical assemblies — think multi-branch harnesses, high-density connectors, and intricate layouts.
- Read and easily interpret complex wiring diagrams, BOMs, and assembly drawings.
- Cut, strip, crimp, terminate, and solder with precision, meeting exacting standards and specs.

#### **Quality First, Always**

- Conduct in-process inspections and self-checks to ensure your work is clean, accurate, and compliant with IPC standards.
- Identify and resolve minor assembly issues on the fly.
- Collaborate with quality control and supervisory staff to address nonconformances and maintain top-tier standards.

#### **Stay Organized, Stay Safe**

- Keep your workspace clean, safe, and ESD-compliant.
- Follow safety protocols and take pride in a well-maintained production floor.
- Help create a culture of accountability and excellence.

#### **Be a Team Player & Mentor**

- Share your knowledge and assist in mentoring Level I Technicians.
  - Take ownership of your work and contribute to team goals.
  - Bring new ideas for improving processes and workflows — your experience matters!
-

## What You Bring to the Table:

- 3–5 years of hands-on electro-mechanical assembly experience (cables, harnesses, PCBs).
  - Ability to read and work from technical drawings, schematics, and documentation with minimal supervision.
  - IPC-A-610, IPC/WHMA-A-620, or IPC-J-STD-001 certification — or willingness to earn certification within 3 months.
  - Intermediate soldering skills and a solid grasp of ESD procedures and workplace safety.
  - Comfortable using a wide range of tools and production equipment.
  - A proactive mindset with attention to detail, consistency, and teamwork.
  - Bonus: Experience mentoring others or training junior technicians.
- 

## Why Join Us?

- Be part of a **collaborative, growing company** where your experience is valued.
  - Work on **high-quality, custom-built products** that make a difference.
  - Enjoy a **supportive team environment**, opportunities for skill development, and room for advancement.
  - Competitive pay and benefits package.
- 

## Are You Ready to Step Into a Role That Recognizes Your Experience?

If you're ready to make a more significant impact, develop your skills, and grow with a company that values craftsmanship and quality — we want to hear from you. Apply today and help us build something great!
